Ротационный лазер SIRIUS 1 Н

Nedo Rotating Laser SIRIUS¹ H

Rotating laser SIRIUS¹ H

The fully automatic horizontal rotating laser with Easy Control one-button operation for especially easy handling.

The fully automatic horizontal rotating laser is now available with Easy Control – the new one-push-button operation for extremely comfortable handling. The rotating laser offers fully automatic self-levelling. The automatic level control stops the laser if it receives a heavy jolt. In this way height errors are avoided. Simply switch it on and off you go!

Including receiver as a standard

Features:

- Fully automatic horizontal laser for exterior applications
- Self-levelling range $\pm 5^\circ$ motor-powered, with automatic level control
- High-power laser diode (3R) for very good laser beam visibility
- Alternatively available with laser class 2
- Automatic level control stops the laser if it receives a heavy jolt. In this way, height errors are avoided.
- Rugged housing protected against low pressure jet water in accordance with IP 65
- Rotor protection made of break-proof glass
- High-power NiMH rechargeable batteries for long operation

Ideal for use on every construction site. Perfect for levelling in applications such as:

- Casting concrete floors
- Fine grading
- Metre marking in interior work
- Bricklaying
- Excavation work
- Landscaping
